We built Circle for creators like you

Communities are the shelf life of independent online creators. They build connections among members, enable profound experiences, and empower vocal advocates.

But after speaking to hundreds of creators, we observed them struggle with co-opted products, stitch together subpar solutions, and wrestle with discussion boards that went stale.

So, we built Circle: a community platform that integrates with your creator stack and transforms your passive audience into passionate superfans for life.

«Moze is a world-class team working at the intersection of technology, design and business. If you are expert in those areas, and obsessed with design, you can create beautiful things that just work. That's what they do.»

I installed Fathom on my personal website yesterday, and wow, what a breath of fresh air. I love how simple it is, and for something like a blog it really gives you all the traffic metrics you could need.

Joel Gascoigne, CEO of Buffer

I switched to Fathom because it's an ethical analytics tool that I can trust with my data. The interface is beautifully simple to use: it shows me everything I want to know about my site's performance, and nothing I don't!

Charli Marie, creative director of ConvertKit

Developers are pretty tech-savvy people, and these days very privacy-cautious—they understand how scripts follow you across the internet, that's why we choose Fathom, because they don't do that.

Tidio has been a huge success on our guitar lesson website because it allows students to ask questions in real time as they stream our guitar lesson videos. The Tidio app was easy to install and it is by far the most modern chat application for websites.

Circle came at an absolutely crucial time for the Makerpad community and has been essential in allowing us to grow. The team are so responsive and the way they build is so intuitive that the platform gets better every week. I recommend Circle to everyone looking at building a community.

"Lugg is THE best! Solomon and Yuri were great! For my most recent purchase I coordinated a pickup elsewhere and drop off at my place. They were fast, efficient, friendly, and extremely helpful (I needed to move a piece of furniture to make some room for the item they picked up). They were in and out in 10 minutes! Thanks a ton!"
